RE: Addition of Approximately 0.46 Acres to the Dynamis Energy, LLC Lease at the Hidden Hollow Landfill.

Dear Mr. Pergande:

The Idaho Department of Environmental Quality (Department) received your email dated September 19, 2012, notifying the Department of the addition of approximately 0.46 acres to the existing leased property within the Hidden Hollow Landfill area. Your email states that no construction will occur on this additional 0.46 acres.

As you know, Dynamis submitted a Non-Municipal Solid Waste Site Application and received Department approval on May 11, 2012 for the Ada County Landfill Waste to Energy Plant. The site application identified 6.58 acres as the area intended for the management and treatment of solid waste by Dynamis. Any construction or management of waste by Dynamis outside the identified 6.58 acres will need Department site and design approval prior to construction and operation as specified in Idaho's Solid Waste Management Rules, IDAPA 58.01.06.012 and IDAPA 58.01.06.032.

Should you have any questions, please don't hesitate to contact me at (208) 373-0416.

Sincerely,

Dean Ehlert
