RE: Facility ID No. 777-00079, H K Contractors, Inc., Idaho Falls
Permit by Rule Registration Notification, Portable Rock Crushing Facility

Dear Mr. Davis:

The Department of Environmental Quality (DEQ) received a Permit by Rule Registration form on April 14, 2008, for a portable Nonmetallic Mineral Processing Plant from H K Contractors, Inc. The registration is for the following equipment, which includes all equipment currently registered for Facility ID No. 777-00079:

<u>Initial Crusher(s) and Grinding Mills¹</u>	<u>Secondary Crusher(s) and Grinding Mills</u>	<u>Screen Decks</u>	<u>Electrical Generator(s)</u>
Cedarapids Jaw crusher Serial No.: 47440 Capacity (T/hr): 450 Manufactured: 1996	Duopactor B9000 Barmac crusher Serial No.: RM9712-1297 Capacity (T/hr): 350 Manufactured: 1997	JCI (screen) Size: 6' x 20' Number of Decks: 3 Serial No.: S051549 Manufactured: 2005	Caterpillar (generator) Output (kW): 1600 Fuel Type: #2 Fuel Oil
	JCI Cone crusher Serial No.: 010014 K400 Capacity (T/hr): 400 Manufactured: 2000	Pioneer (screen) Size: 6' x 20' Number of Decks: 3 Serial No.: 620332BG162 Manufactured: 2004	
<u>Total Capacity (T/hr)²</u> 450 tons per hour		Cedarapids (screen) Size: 6' x 20' Number of Decks: 3 Serial No.: 46429 Manufactured: 1997	

¹ Per 40 CFR 60.771, Capacity means the cumulative rated capacity of all initial crushers that are part of the plant. Initial crusher means any crusher into which nonmetallic minerals can be fed without prior crushing in the plant.

² T/hr = tons per hour

This registration for Permit by Rule is effective immediately and replaces Permit by Rule registration PR-2007.0064, issued on May 2, 2007, the terms and conditions of which no longer apply. We recommend that you maintain a copy of this letter and a copy of the enclosed registration form for your records and have a copy of this letter available at all sites where the registered equipment is being operated or stored.

Please be advised that the equipment operation, monitoring, and recordkeeping for this portable rock crushing equipment must comply at all times with the Rules for the Control of Nonmetallic Mineral Processing Plants in accordance with IDAPA 58.01.01.790 through 802 (Rules for the Control of Air Pollution in Idaho). A description of the portable rock crusher PBR program and links to PBR guidance and forms for registration, relocation, and operations monitoring are provided on DEQ's website at http://www.deq.idaho.gov/air/permits_forms/permitting/pbr.cfm. A copy of the Rules can be downloaded from <http://adm.idaho.gov/adminrules/rules/idapa58/0101.pdf>.

In order to fully understand the compliance requirements of this Permit by Rule, DEQ highly recommends that you schedule a meeting with Maria Miles, Air Quality Analyst, at (208) 528-2650 to review and discuss the terms and conditions of this Permit by Rule. Should you choose to schedule this meeting, DEQ recommends the following representatives attend the meeting: your facility's plant manager, responsible official, environmental contact, and any other staff responsible for day-to-day compliance with permit conditions.

Other Air Quality Requirements

You will be required to submit a portable equipment relocation form each time the plant is moved to a new site of operations. DEQ requires that this form be submitted at least ten days prior to relocating the equipment. A copy of the form is enclosed for your convenience. You are also required to log the hours of operation for any electrical generator used, log all fugitive dust complaints, and log all triggers that initiate fugitive dust control. A copy of each of those forms is also enclosed. If you have questions regarding this Permit by Rule process, please contact Robert Baldwin at (208) 373-0502 or robert.baldwin@deq.idaho.gov.

Sincerely,

Mike Simon
