RE: AIRS Facility No. 777-00260, Peak Sand & Gravel, Inc., Portable

Dear Mr. Gillies:

On September 15, 2003, the Department of Environmental Quality (DEQ) received a Permit by Rule (PBR) registration from Peak Sand & Gravel, Inc. for a nonmetallic mineral processing plant. Peak Sand & Gravel, Inc. has registered the following information as required by IDAPA 58.01.01.797.02 *Rules for the Control of Air Pollution in Idaho*.

Owners and operators of nonmetallic mineral processing plants that opt for a PBR shall comply with all of the applicable provisions of IDAPA 58.01.01.795-799. This PBR replaces the Permit to Construct No. 777-00260 (aka Plant 2) issued June 19, 2000. Registration for a PBR does not relieve the owner or operator of portable equipment from the registration and relocation requirements of IDAPA 58.01.01.500. The DEQ recommends that Peak Sand & Gravel, Inc. maintain this letter, the September 15, 2003 PBR registration, and all required monitoring and recordkeeping information at each site of operations.

Please be aware that Peak Sand & Gravel, Inc. is required to submit a portable equipment relocation form each time the plant, or any registered equipment, is moved to a new site of operations. This form is required to be submitted to DEQ ten days prior to relocating the equipment. A copy of the form is enclosed for your convenience.

If you have any questions regarding the Permit by Rule process, please contact me at (208) 373-0437 or wrogers@deq.state.id.us.
