RE: AIRS Facility No. 777-00333, Half Round Rock, Hayden Lake

On September 2, 2003 the Department of Environmental Quality (DEQ) received a Permit by Rule (PBR) registration from Half Round Rock for a nonmetallic mineral processing plant. There is no existing air quality permit associated with this company; therefore, no termination action is required.

Owners and operators of nonmetallic mineral processing plants that opt for a PBR shall comply with all of the applicable provisions of IDAPA 58.01.01.795-799. Registration for a PBR does not relieve the owner or operator of portable equipment from the registration and relocation requirements of IDAPA 58.01.01.500. The DEQ recommends Half Round Rock maintain this letter, the August 27, 2003 PBR registration, and all required monitoring and recordkeeping information at each site of operation.

Please be aware that Half Round Rock is required to submit a portable equipment relocation form to the Department at least ten days prior to relocating the plant to a new site of operations. A copy of the form is enclosed for your convenience.
