

FACT SHEET

DRAFT LANDMARK WOOD TREATMENT SITE CLOSURE PLAN LOCATED IN THE BOISE NATIONAL FOREST EPA ID NO. ID1122300105

This fact sheet sets forth the principal facts pertaining to a draft closure plan that the Idaho Department of Environmental Quality (Department) is proposing to approve. The closure plan presents the applicable closure requirements the Department intends to require of the USDA Forest Service associated with the Landmark Wood Treatment Site in the Boise National Forest.

A. PURPOSE OF THE CLOSURE PLAN

Closure plans specify administrative and procedural requirements the owner/operator must meet in order to comply with Idaho's Hazardous Waste Management Act (HWMA) of 1983, as amended. The Department reviewed, and now proposes to approve, the draft plan to close the Landmark Wood Treatment Site.

B. PROCEDURES FOR REACHING A FINAL DECISION

IDAPA 58.01.05.009 [40 CFR § 265.112(d)(4)] requires that the public be given thirty (30) calendar days to comment on the draft closure plan presented for approval under the HWMA. The comment period will begin March 17, 2016 and will end on April 18, 2016. Any person interested in commenting on this plan must do so within this thirty (30) calendar day comment period.

At the discretion of the Director of the Department, a public hearing may be provided if signed, written requests for a hearing are submitted personally, or sent to the address below, and received on or before April 18, 2016. All persons wishing to comment on any of the closure plan's conditions should submit comments in writing to:

*Robert E. Bullock
c/o Ms. Jennifer Shafer
DEQ Waste Management & Remediation Division
1410 N. Hilton
Boise, ID 83706
Phone: (208) 373-0502*

Comments may also be submitted through the comment form on the Department website at www.deq.idaho.gov. Comments should include all reasonable available references, factual grounds, and supporting material.

When making the final determination regarding the approval of this closure plan, the Department will consider all written comments received during the public comment period and comments received during the public hearing (if held).

C. FACILITY/UNIT DESCRIPTION

The Landmark Wood Treatment Site is located in the Boise National Forest in Valley County. The USDA Forest Service operated a small post and pole treatment unit at the site from 1984 to 1990, which included a dip tank. The dip tank was excavated and disposed of as a hazardous

waste in 2015. The closure will consist of the excavation and off-site disposal of pentachlorophenol (PCP) contaminated soil.

The USDA Forest Service entered into a Voluntary Consent Order (VCO) concerning the Landmark Wood Treatment Site. The VCO is an agreement between the Department and the Forest Service to correct potential HWMA/RCRA compliance issues at the site. Per the requirements of the VCO agreement, a hazardous waste determination was conducted and it was determined that the Landmark Wood Treatment Site stored hazardous waste for greater than ninety (90) days. Some of the wastes included pentachlorophenol (PCP) which is a "Listed" hazardous waste. Therefore, those portions of the dip tank system which managed hazardous wastes, and the contaminated soil in the vicinity, are subject to closure as an interim status unit under this plan.

D. CLOSURE ACTIVITIES

Closure activities include removing contaminated soils to meet closure plan criteria. All activities associated with this plan will be monitored and certified by a qualified registered professional engineer.

E. CLOSURE PLAN ORGANIZATION

The closure plan is divided into ten sections and 3 appendices as follows:

SECTION	TITLE
1	INTRODUCTION
2	GENERAL SITE DESCRIPTION AND LOCATION
3	DESCRIPTON AND BACKGROUND OF THE WOOD TREATMENT FACILITY
4	SITE INVESTIGATION
5	OVERVIEW OF CLOSURE PORCEDURES
6	CLOSURE SAMPLING AND ANALYSIS PLAN
7	QA/QC PLAN AND PROCEDURES
8	HEALTH AND SAFETY PLAN FOR CLOSURE ACTIVITIES
9	SITE MANAGEMENT
10	SCHEDULE FOR CLOSURE
11	REFERENCES

APPENDIX	TOPIC
1	SAMPLING AND ANALYSIS PLAN
2	SITE HEALTH AND SAFETY PLAN
3	SITE PHOTOGRAPHS
4	HAZARDOUS WASTE MANIFESTS
5	BORING LOGS
