

**Composting with Biosolids
Workshop Agenda**

Day One *noon to 5:15 pm*

Session time: noon am to 2:00 pm

Check in and Welcome

Composting with Biosolids Overview

Biology of a Compost Pile

Break 15 minutes

Session time: 2:15 pm to 3:15 pm

Biosolids Regulations

Germ City

Break 15 minutes

Session time: 3:30 pm to 5:15 pm

Biology of Odor

Considerations of designing a compost facility

Soil Science Part 1

Day Two *8 am to 5 pm*

Session time: 8 am to 10:30 am

Composting and Sovita set up

Soil science part 2

Case Study

Compost quality considerations by end use

Break 15 minutes

Session time: 10:45 am to noon

Compost Stability

Hands on Pile: Compost Moisture and Soil

Lunch noon to 1 pm

Drive to facility 30 minutes

Session time: 1:30 pm to 3:30 pm

Hands on activities:

bulk density, pH and Salts measurements, application rates, compost moistures and others

Session time: 3:30 pm to 5 pm

Tour at local composting facility

Questions, quiz and evaluation
