RE: Final finding of no significant impact for the Bloomington Water
Facilities Project - DWG 113-2011-6

Dear Mayor Madsen:

A draft finding of no significant impact (FONSI) was issued by the Idaho Department of Environmental Quality (DEQ) on April 6, 2016 for the Bloomington Water Facilities project based on a careful review of the environmental information document prepared by Sunrise Engineering.

The draft FONSI was published on April 6, 2016 in the *News Examiner*, newspaper of record for the City of Bloomington. No comments were received during the 30-day public comment period following publication. Therefore, the record of decision for the Bloomington Water Facilities project, a FONSI, is final.

This completes the environmental review of this project. Contact Andrew Fellows at the DEQ Pocatello Regional Office, (208) 239-5016, if you have questions regarding the project. For questions regarding the environmental review contact Aimee Hill at (208) 373-0556 or via e-mail at aimee.hill@deq.idaho.gov.

Sincerely,

A handwritten signature in blue ink that reads "Barry N. Burnell".

Barry N. Burnell
Water Quality Division Administrator
