

The Reuse Permitting Process in Idaho

Abstract: This presentation will cover the reuse permitting process for a new reuse project. It will briefly touch on other permitting related documents. The goal of the presentation is to provide the audience with a real world example of getting a new facility permitted to reuse recycled water including tips for permittees. Presentation will go over process and discuss an example project

- Discuss options with consultant
- Meet with DEQ and other regulatory agencies
- Facility Plans (muni WW, industrial WW, drinking water)
- Preliminary engineering report
- Plans and Specs
- Reuse permit application (estimated loadings)
- Compliance activities (seepage testing, PO, QAPP)

Presenter: **Wendy Waudby**

Title: Staff Engineer

Organization: Idaho DEQ

Address: 1445 N. Orchard, Boise, ID 83706

Phone: 208-373-0550
