I, the tenant, agree to the following:

- I will operate the heating appliance in accordance with the manufacturer's instructions.
- For woodstoves and pellet stoves, I will follow proper burning practices as discussed by the Participating Vendor and in accordance with EPA *BurnWise* educational materials. *I will not burn pressure-treated wood, garbage/trash, plastic, or any other EPA-prohibited materials.*
- I understand that proper wood-burning practices (e.g., burning only dry, natural wood that has been seasoned at least 6 months or commercially designed firelogs approved for woodstove use) and proper stove installation and operation (e.g., maintaining a hot fire) are critical to the effectiveness of the heating device.
- I will allow DEQ personnel to conduct 2 home visits after installation: one within 30 days of the installation and one again prior to September 30, 2020.
