

IDAHO DEPARTMENT OF ENVIRONMENTAL QUALITY

REUSE PERMIT

M-072-03 – Modification 3

Permittee Name: Sandpiper Shores Master Utility, LLC
Effective Date of this Modification: June 25, 2019

Complete Description of Modification

The purpose of this Permit Modification is to extend the expiration date in the existing permit from May 1, 2020 to **December 31, 2020** (244 days). The permittee requested this extension to complete construction of a new wastewater lagoon prior to preparing the permit renewal application and technical report. Currently, the permittee is under a signed compliance agreement schedule (CAS) with DEQ to replace the existing, leaking lagoon. The most recent CAS issued requires the permittee to submit plans and specifications to DEQ by February 20, 2020. This permit modification will provide additional time allowing the permittee to adequately prepare the permit renewal application. With permit modification 3, the permittee is required to submit an application and technical report no later than **July 4, 2020**; 180 days prior to permit expiration.

There are no additional modifications to the reuse permit; all other terms and conditions in Permit M-072-04, Modification 1, and Modification 2 apply.

Modification 3 is hereby approved. This modification to the permit is incorporated into, and constitutes a part of, Reuse Permit No. M-072-03. This permit modification must be attached to the permit. The permit is incomplete and unlawful under IDAPA 58.01.17, *Recycled Water Rules*, without this permit modification attached.

Signed,

Daniel Redline, Regional Administrator
Coeur d'Alene Regional Office
Department of Environmental Quality
