

Air Pollution Forecast and Caution - Extended

Date/Time Issued: **Tuesday, August 25, 2020/ 1:00 p.m.**

Next Update: **Thursday, August 27, 2020**

The Idaho Department of Environmental Quality (DEQ) has extended the **Air Pollution Forecast and Caution** to notify residents of **Custer and Lemhi counties** of degraded air quality. Due to wildfire smoke health impacts may occur, **BURNING RESTRICTIONS ARE IN EFFECT**. Air quality is currently in the **UNHEALTHY FOR SENSITIVE GROUPS*** category and is forecast to be in the Unhealthy for Sensitive Groups to Unhealthy categories. The pollutant of concern is Fine Particulate Matter (PM2.5).

Health Impacts and Recommended Actions

When air quality is unhealthy for sensitive groups, sensitive persons* may experience health effects and should limit prolonged or heavy exertion and limit time spent outdoors. The general public is unlikely to be affected.

Woodstove Burning Restrictions

Voluntary burn ban for residential wood burning activities.

Outdoor Burning Restrictions

All outdoor open burning is prohibited by the Department of Environmental Quality in accordance with the Rules for the Control of Air Pollution in Idaho (IDAPA 58.01.01.550).

Contact

For more information, contact DEQ's Regional Office in Idaho Falls at (208) 528-2650.

For real-time air monitoring information, visit DEQ's website at airquality.deq.idaho.gov.

For more information concerning local ordinances contact your local city or county.

Air Quality Index (AQI):

Range	Category	Meaning
	Good	Air quality is considered satisfactory, and air pollution poses little or no risk
51 to 100	Moderate	Air quality is acceptable; however, for some pollutants there may be a moderate health concern for a very small number of people who are unusually sensitive to air pollution.
101 to 150	Unhealthy for Sensitive Groups*	Members of sensitive groups may experience health effects. The general public is not likely to be affected.
151 to 200	Unhealthy	Everyone may begin to experience health effects; members of sensitive groups may experience more serious health effects.
201 to 300	Very Unhealthy	Health warnings of emergency conditions. The entire population is more likely to be affected.
301 to 500	Hazardous	Health alert: everyone may experience more serious health effects.

For more information on the AQI, visit http://www.epa.gov/airnow/aqi_brochure_02_14.pdf.
