Estimated Burn Duration:

Name of Person conducting burn (if different than applicant).

*Cell Phone or Radio Frequency of person conducting burn (if different than applicant).

Burner attended State of Idaho CRB Training within the last 5 years?

Date Burner Trained: / /

(1) IDAPA 58.01.01.618.06 requires growers to propose a date for residue burning, or more accurate burn call determination. DEQ understands that environmental factors can influence this date to change. The ability for the grower to update this proposed date as the original date approaches is important to ensure that growers needs are more adequately met. This date can be changed by notifying the CRB Program Office in Boise at (208) 373-0332, or your local regional office.

Idaho Department of Environmental Quality Crop Residue Burning Permit-by-Rule Registration

***Fire Safety Methods:** Please indicate the measures you will take to prevent escaped burns and smoke danger:

- water availability hand tool availability heavy equipment availability
- fire breaks or safety zones flaggers

Other:

***Plot Plan**

Please locate and identify in the box below: Field(s) to be burned; access roads and highways; any houses, businesses, or sensitive areas that could be impacted by the burning to be conducted. Indicate distance and direction. When more than one field is shown, label the field using the field number from page 3 of this application. Attach additional pages as needed to apply for multiple fields. A tract map, GPS map or other similar map may also be used.
