1.0 GENERAL INFORMATION

1.1 Purpose of the Request for Proposal

The Idaho Department of Environmental Quality (DEQ), through this Request for Proposal (RFP) is seeking a qualified contractor to provide video recording services for properties identified by DEQ. This will include a pre-construction and a post-construction video record. The video DVDs will be organized by community, placed in ring binders, and delivered to the DEQ.

1.2 Background Information

The Environmental Protection Agency (EPA) has prepared a Record of Decision (ROD) for environmental and human health improvements at the Bunker Hill Mining and Metallurgical Complex Operable Unit 3 - Coeur d'Alene Basin (EPA September 2002). The residential, commercial and rights-of-way human health remedial action goal is to reduce lead exposure pathways in soil and house dust.

Two programs may be implemented to reduce lead exposures:

- 1) partial soil removal and replacement for properties with lead content greater than or equal to 1000 mg/kg or with arsenic content greater than or equal to 100 mg/kg.
- 2) barrier enhancement of property with a soil lead content greater than or equal to 700 mg/kg but less than 1000 mg/kg (commonly called "Greening")

The specific performance objectives, standards, technical criteria, remedial design, remedial action, decontamination procedures, soil disposal and backfilling for remedial activities performed are those specified in the Residential, Commercial and Right-of-Way Property Remedial Design Report – RDR (DEQ, 2007).

Pre- and post-remediation video logs are obtained for each property.

All DVD's will be concurrently narrated to explain the content and the DVD's will be delivered in binders with an index at the beginning of each binder. DVD's will have locations of each property printed on the DVD's. Such records will be made available during construction for DEQ staff review, at their request, and final records provided to DEQ within 30 days of project completion.

Each property will be video taped according to the following format, to assure consistency. Each video will have a date and time stamp on the viewing screen.

6.0 SELECTION PROCEDURES

6.1 Scoring Criteria

Each proposal will be reviewed and evaluated on the basis of the criteria indicated below. The proportions of the total score assigned to each criterion reflect their relative importance.

Evaluation Criteria:	Points Possible
Experience and Capabilities of the Firm	400.0
Price Proposal	600.0
TOTAL	1000.0

6.2 Selection Procedures

6.2.1 Administrative Review.

Each bid proposal will be reviewed to determine if it is complete and all minimum requirements are met before being submitted for evaluation and scoring. Once the bid proposal is received, logged in and opened, it is reviewed for the following minimum requirements:

1. The bid was received before the date and time specified in the RFP.
2. The transmittal letter is in the format specified in this RFP (Section 4.1 A.).
3. A complete, signed Appendix B “Certification Regarding Debarment, Suspension and Other Responsibility Matters” is included as well as a completed, signed Appendices C, D, and E.
4. All information required in the RFP is contained in the bid proposal. This includes responses to the technical proposal including project management, qualifications of the firm and personnel, project descriptions, letters of reference, price proposal and any other requirements.

If the bid proposal fails to meet the minimum requirements, the bidder is notified immediately. There is no opportunity to correct deficiencies once the bid due date and time has passed. Therefore, the bid proposal is not submitted for evaluation and scoring.

6.2.2 Technical Evaluation and Scoring

Bid proposals submitted in response to this RFP will be evaluated by a bid evaluation committee comprised of at least three individuals who are qualified to evaluate the technical aspects of the bids. The mission of the bid evaluation committee is to develop a recommendation for award. The IEC will calculate a final score and rank the proposals accordingly. The IEC will then submit to administration its recommendations for contract awards. Upon approval by the Director of DEQ the successful applicant will be notified of their selection by the Division of Purchasing. In addition, all unsuccessful candidates will be promptly notified that their proposals were not selected.

6.2.3 Price Proposal Evaluation

Prior to administering the standard formula for price evaluation, where applicable, the Idaho Reciprocal Preference law procedures are applied. Price proposals are then evaluated using the following formula where the maximum points are 600.

Lowest Bid Price = 600 points

Calculations for Next Bid Price

Lowest Bid Price / Next Bid Price x 600 = # of points

[Example: \$400 / \$750 x 600 = 319.99 points]

6.3 Final Results

A final tally is computed by summing scores from the technical evaluation, bidder interviews where applicable and price proposal evaluation. The bidder with the most points is ranked #1. Other bidders are ranked accordingly. The highest ranked bidder is considered the bidder to whom a contract may be awarded. The final scores are reviewed and approved by the DEQ Director who then authorizes the Grants/Contracts Officer to proceed with notification. All bidders receive notification of bid evaluation results by certified mail.

7.0 ADMINISTRATIVE REQUIREMENTS

7.1 Contract Term and Payment

The DEQ expects to award a definite delivery/definite quantity type contract. The contract effective date is expected to be **April 16, 2012**, or as soon after that date that the contract is issued. The contract is for a period of one year. Based on satisfactory contractor performance, the contract may be extended for three (3) additional one-year periods, for a total of four (4) years.

Payments will be made no more than monthly, for tasks completed and billed. Invoices will not be paid until the DEQ Project Manager signs off on satisfaction with the final product.

Thereafter, all proposals submitted in response to this request shall be deemed public record. In the event that a proposer desires to claim portions of its proposal as exempt from disclosure, **it is incumbent upon the proposer to identify those portions.**

At the time of bid submittal, each page, or portion thereof claimed to be exempt from disclosure must be clearly identified by placement of a stamped, typed or other notation employing such language as "trade secret", "proprietary", or "confidential" in the lower right-hand corner of each relevant page. In addition, if a bidder has claimed certain portions of the bid proposal to be exempt from disclosure, **the bidder shall provide substantiation of the claim in the bid proposal**, which can be included as an appendix. The substantiation should address the following: measures taken by the bidder to guard against nonconsensual disclosure of the information to others, and the means by which such measures will be continued; the extent to which the information has been disclosed to others and the precautions

taken; pertinent confidentiality determinations, if any, by other state or federal agencies; any other relevant facts to support the claim; and, if appropriate, the reason that the information is not required to be disclosed by state or federal statute. (IDAPA 58.01.21.014.03)

The DEQ will consider a proposer's request(s) for exemption from disclosure; however, DEQ will make a decision predicated upon applicable law. An assertion by a bidder that the entire proposal is exempt from disclosure will not be honored.

7.5 Changes in RFP

Changes made in the RFP as a result of responses made to concerns will be put in writing to each proposer no later than seven (7) working days prior to the deadline for proposal submission. DEQ will not respond to telephone inquiries from proposers about RFP changes. However, the DEQ will respond to proposer's questions as specified in Section 5.3.

7.6 Changes in Proposals

7.8 Use of Subcontractors

The selected contractor will be required to assume responsibility for all services offered in the proposal, including services provided by subcontractors. Further, DEQ will consider the contractor to be the sole point of contact with regard to contractual matters, including payment of any and all charges resulting from the contract. If any part of the work is to be subcontracted to firms other than those identified as team members in the proposal, the contractor shall provide a complete description of the work and the percentage of the work to be subcontracted and descriptive information about the subcontractors' organization and capabilities. Unless otherwise authorized by DEQ, a competitive selection process shall be used for selection of such subcontractors. The contractor must follow all applicable federal and state regulations in the award of subcontractors. The use of any subcontractors will be strictly based on written approval by DEQ, whether or not identified in the proposal. The contractor is totally responsible for adherence by the subcontractors to all provisions of the contract.

7.9 Contracting With Small Business and Minority Firms, Women's Business Enterprises and Labor Surplus Area Firms

It is national policy to award a fair share of contracts to small, minority and women's business firms. Accordingly, affirmative steps must be taken to ensure that disadvantaged businesses are utilized when possible as sources of supplies, equipment, construction and services. The contractor shall agree to

support DEQ's small, minority and women's business enterprise contract procurement program ensuring those businesses participation in subcontracts. The percentages are: Small (2%), Minority (9%), and Women (3%). Affirmative steps include the following as a minimum:

- 1) Including qualified small, minority and women's businesses on solicitation lists;
- 2) Ensuring that small, minority and women's businesses are solicited whenever they are potential sources;
- 3) When economically feasible, dividing total requirements into smaller tasks or quantities so as to permit maximum small, minority, and women's business participation;
- 4) Where the requirement permits, establishing delivery schedules which will encourage participation by small, minority and women's businesses;
- 5) Using the services and assistance of the Small Business Administration, the Office of Minority Business Enterprise of the Department of Commerce and the Community Services Administration as required;
- 6) Proposers are encouraged to procure goods and services from labor surplus areas.

Records supporting the percentages of disadvantaged business participation shall be maintained by the contractor and shall be made available to DEQ's duly authorized representative upon request. Each payment request submitted by the contractor to DEQ will need to identify clearly the amounts payable to disadvantaged businesses.

7.10 Managing Conflict of Interest

DEQ reserves the right to procure additional consulting services and issue work assignments to contractors other than the successful proposers under the contract in the event that an irresolvable conflict of interest exists and cannot be avoided. Such conflicts may include status as a potentially responsible party, present or proposed contractual arrangements with a potentially responsible party to be studied, present or proposed contractual agreements with a firm that manufactures or sells any substance or items to be studied, present or proposed contractual agreements with a firm that manufactures or sells any substance or item in competition with a substance or item to be studied under this proposed contract.

The contractor shall assure DEQ in writing that no subcontractors proposed in its work plan have a potential conflict of interest. It is the contractor's obligation to provide a project team in response to each work assignment that is qualified and free from potential conflict either by using appropriate subcontractors on its proposed team or by acquiring necessary services outside the project team.

7.11 Contract Terms and Conditions

The successful bidder will be required to sign a DEQ Standard Contract and adhere to the State of Idaho Standard Terms and Conditions. The DEQ Standard Contract is included in this RFP as Appendix A. The bid proposal of the successful bidder, the RFP and any addendum will become part of the contract. Any questions regarding the Standard Contract must be addressed in accordance with Section 5.3.

The following is a brief explanation of the insurance coverage that the DEQ requires of the contractor. A certificate of insurance will be required of the contractor selected.

The CONTRACTOR shall ensure that all policies of insurance are endorsed to read that there shall be no cancellation, material change, potential exhaustion of aggregate limits or intent not to renew insurance coverage(s) without sixty (60) days prior written notice from the CONTRACTOR or its insurer to the Department of Environmental Quality. CONTRACTOR shall further ensure that all policies of insurance are endorsed to read that any failure to comply with the reporting provisions of this insurance, except for the potential exhaustion of aggregate limits, shall not affect the coverage(s) provided to the State of Idaho, Department of Environmental Quality and its divisions, officers and employees.
