**NOTICE OF PUBLIC COMMENT PERIOD REGARDING AN
APPLICATION TO MODIFY A PERMIT TO CONSTRUCT AND OPERATE
AN AIR POLLUTION-EMITTING SOURCE**

PROPOSED ACTION: General Mills Operations, Inc., Blackfoot, Idaho has applied to the Department of Environmental Quality (DEQ) to modify its permit to construct and operate an air pollution-emitting source located at 467 West Highway 26. DEQ has determined that construction and operation according to the proposed modified permit will not cause or significantly contribute to a violation of any ambient air quality standard and will not injure or unreasonably affect human, animal life or vegetation. DEQ has reviewed the application and completed an analysis of the information submitted by the applicant to increase the daily operating limit and decrease the annual operating limit for the grain conditioning facility. Based on this analysis, DEQ proposes to issue the modified permit to construct to General Mills Operations, Inc., Blackfoot.

PUBLIC COMMENT PERIOD: Notice is given that DEQ has scheduled a period to receive public comments under Docket No. AQ-1213 concerning only the proposed modified permit terms in accordance with IDAPA 58.01.01.209. A package containing the information submitted by the applicant, DEQ's analysis, and the proposed modified permit is available for public review on DEQ's website at <http://www.deq.idaho.gov>.
