RE: Facility ID No. 001-00252, Dynamis Energy, LLC, Boise
Completeness Determination of PTC Application, Installation of a New Waste-to-Energy
Facility to be Located at the Hidden Hollow Landfill

Dear Mr. Mahaffey:

On April 25, 2012, the Department of Environmental Quality (DEQ) received a Permit to Construct application from Dynamis Energy, LLC for the installation of a new waste-to-energy facility to be located at the Hidden Hollow Landfill located at Boise. The application materials have been reviewed, and the application determined complete. Therefore, DEQ will proceed with the processing of this permit application in accordance with IDAPA 58.01.01.200 (Rules for the Control of Air Pollution in Idaho)(Rules).

Although the application has been declared complete, it may be necessary to solicit further information to assist us during our review. The permit evaluation phase may take up to 60 days, although the application will be processed as expeditiously as our resources allow. Please be aware that you may submit a written request to DEQ to provide a draft permit for review prior to issuance of a final permit in accordance with IDAPA 58.01.01.209.01.b.i. (Rules). Additionally, an opportunity for a public comment period will be provided in accordance with IDAPA 58.01.01.209.01.c. (Rules). Should a comment period be required, at least 45 days will be added to the time needed to process your application.

If you have any questions about this letter or about the air quality permitting process, please contact me at (208) 373-0502 or darrin.pampaian@deq.idaho.gov.

Sincerely,

Darrin Pampaian
