

Idaho Department of Environmental Quality
Crop Residue Burning
Permit-by-Rule
Notification of FINAL BURN APPROVAL

The Idaho Department of Environmental Quality (DEQ) is issuing this notification of final burn approval for the field listed below. Only the field included in this notification is approved to burn. This final approval allows the permittee to burn crop residue under the requirements and conditions stated in this permit. **NOTE: The permittee may be required to immediately extinguish the fire or withhold additional material such that the fire burns down, if DEQ determines that that burn is having, or will have, an adverse impact on an institution with a sensitive population.**

The permit requirements and general terms and conditions below apply to all open burning of crop residue and must be complied with.

PERMITTEE INFORMATION

Name: Wayne Schenk
Mailing Address: 390 West 100 North
City/State/Zip: RUPERT ID, 83350
Permit Number: CRB2012-382
Field Name: Kerbs
Legal Description: QTRQTR - ID08T, 9S,
 23E, 11, NE, SE
County: MINIDOKA
Burn Management Area: Northern Magic Valley
Acres Approved: 4
Person Conducting Burn: Wayne Schenk
Date of Burn: 08-27-2012
Start Time: 12:30 PM
End Time: 5:00 PM

REQUIREMENTS

(REVIEW YOUR PERMIT REQUIREMENTS CAREFULLY)

This field is located within 3 miles of an institution with sensitive populations (schools, hospitals, nursing homes, assisted living centers).

1. Cannot burn if sustained surface winds are from the North, while school is in session.
2. Cannot burn if sustained surface winds are from the Northwest.

General Permit Conditions - Apply to all burning crop residue.

1. **Public Roadway Safety** - The permittee is responsible to ensure that adequate measures are taken such that the burn does not create a hazard for travel on a public roadway. (per IDAPA 58.01.01.621.02.c)
2. **Fire Safety Measures** - The permittee shall prevent their burn from escaping their control. (per IDAPA 58.01.01.619.05)
3. **Protection of Institutions with Sensitive Populations** - Burning is not allowed if smoke is adversely impacting or is expected to adversely impact an institution with sensitive population. (per IDAPA 58.01.01.621.01.f)

3. Cannot burn if the sustained surface wind speed exceeds 12 mph at any time during the burn.

GENERAL TERMS AND CONDITIONS

1. Burning of crop residue shall not be conducted on weekends, federal or state holidays, or after sunset or before sunrise.
2. Burning of crop residue shall not be conducted unless the Department has designated that day a burn day and the permittee has received individual approval specifying conditions under which a burn may be conducted.
3. Burning of crop residue shall be conducted in the field in which it was generated. Note: Open burning of crop residue, defined as vegetative material remaining in the field after harvest or vegetative material produced on designated conservation reserve program (CRP) lands, to develop physiological conditions conducive to increase crop yields, control diseases, insects, pests or weed infestations is an allowable form of open burning in accordance with Idaho Code §39-114
4. The person conducting the burn must have on their possession a portable form of communication such as a cellular phone or radio of compatible frequency with the Department in order to receive burn approval information or information that might require measures to withhold additional material such that the fire burns down.
5. When required by the conditions of the notice of approval to burn, the permittee burning in proximity to an institution with a sensitive population shall immediately extinguish the fire or withhold additional material such that the fire burns down, unless the Department determines that the burn will not have an adverse impact on such institutions.
6. All crop residue burning shall be prohibited when the Department issues an air quality forecast and caution, alert, warning or emergency as identified in Section 552 of the Rules for the Control of Air Pollution in Idaho.
7. All persons intending to burn crop residue shall obtain any additional applicable permits from federal, state or local fire control authorities prior to receiving approval from the Department to burn crop residue. It shall be the responsibility of the applicant to obtain all applicable permits. Failure to obtain all permits will be considered a violation of this condition.
8. The use of re-burn machines, propane flamers, or other portable devices to ignite a field for the purposes of crop residue burning shall be considered an allowable form of open burning. Tires and other restricted material described in Subsection 603.01 of the Rules for the Control of Air Pollution in Idaho are not allowed for ignition of fields.
9. All persons burning crop residue shall report to the Department the information required in the post burn report included in this registration within 24 hours of completing the burn. The Department may restrict further burning by a permittee until such reports are received.
10. A re-burn conducted to complete crop residue burning shall be considered a new burn and will need approval from DEQ prior to burning.
