

PBJ Diversion

Sponsored by
Bear lake SWCD
Garth Boehme Chairman

Project location

Bear Lake HUC # 16010201

Stream Effected:

Ovid Creek and Bear River

Pollutants:

Sediment

Beneficial uses

Cold Water Aquatic Life

Secondary Contact

Recreation

Ag Water Supply

Industrial Water Supply

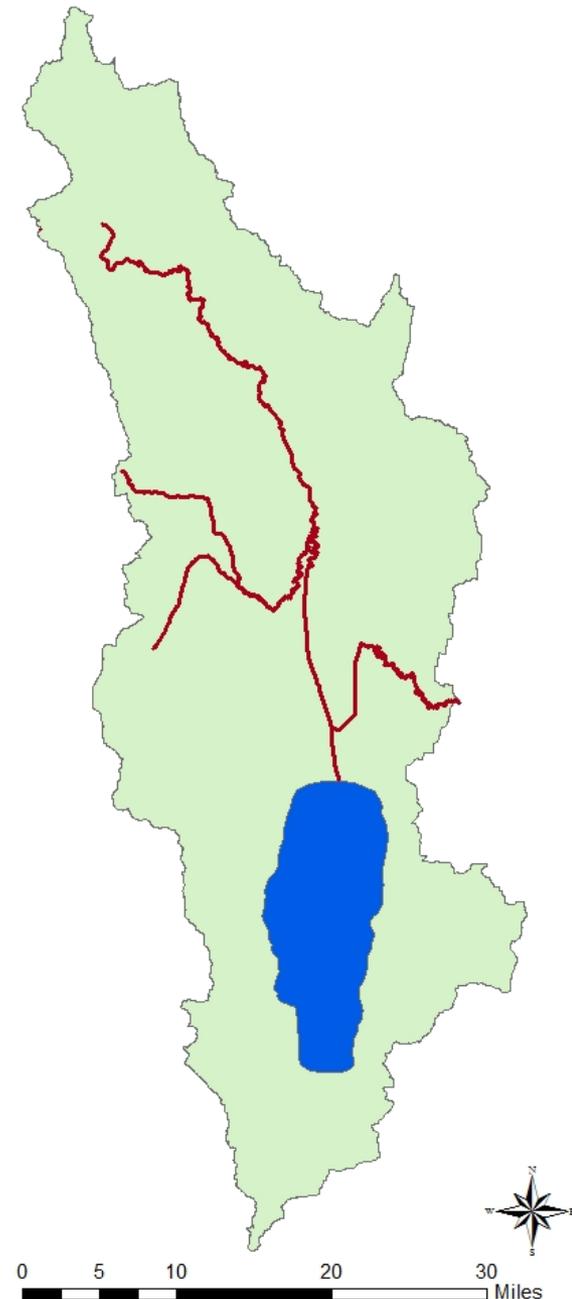

Wildlife Habitat

Aesthetics

TMDL Load Reductions

Ovid Creek: 115 tons

Bear River: 30 tons

BMPs

- Structure for water control**
- Streambank Stabilization**
- Measuring device**
- Willow planting**
- Fence**

Benefits

- Reduce 40 tons of sediment
- Stabilize 300ft of streambank
- Measure diversion rate
- Make the diversion safer to operate
