

## Request for Qualifications Request for Expression of Interest Request for Cost Proposals

### Update Project:

#### **IDEQ Stormwater Best Management Practices Catalog**

The IDEQ Stormwater Best Management Practices Catalog, otherwise known as the *Catalog of Stormwater Best Management Practices for Idaho Cities and Counties*, was last updated in 2005. Since that time, the Federal permits regulating stormwater in Idaho have been renewed (e.g., 2008 Multi-Sector General Permit (MSGP); 2012 Construction General Permit (CGP)), and technical knowledge of how to properly manage the effects of stormwater on surface and ground water quality have greatly expanded.

As a result, DEQ is seeking qualifications from those parties with an interest in updating this important reference document.

The Scope of Work contemplated under this contract may include:

1. Update of current regulatory framework for stormwater permitting in Idaho;
  - a. 2008 MSGP;
  - b. 2012 CGP;
  - c. Recent Municipal Separate Storm Sewer Systems permits; and
  - d. Clean Water Act Section 401 Water Quality Certifications/Anti-Degradation Reviews.
2. Reorganization of catalog to facilitate ease of use/location of reference materials;
3. Correction of errata and omissions;
4. Updates to Source Controls Best Management Practices (BMPs);
5. Discussion of Green Infrastructure BMPs;
6. Identification of Innovative BMPs; and
7. Inclusion of the Role of Public Education in Storm Water Management in Idaho.

The specific Scope of Work to be performed under this contract will be negotiated based on the selected firm's capabilities and available funding. Level-of-effort anticipated is 200-400 hours; budget available is \$25,000.

Individuals and organizations interested in assisting DEQ with this catalog update are encouraged to submit their qualifications for consideration. Submittals will be evaluated on the basis of experience/familiarity with existing BMP Catalog, project approach to address the specified scope of work, and cost. Submittals should be limited to 10 pages.

Please submit qualifications, expressions of interest, and cost proposals by January 7, 2013, to:
