

Joni Johnson, PE

Rural Development Specialist, RCAC

Joni Johnson has over 12 years' experience in water and wastewater engineering. Ms. Johnson provides technical expertise to rural water and wastewater systems in Idaho. She received a BS in Civil Engineering from Northwestern University, a Master's in Environmental Engineering from Johns Hopkins University, and an MBA from Marquette University.

Her wastewater experience includes four years with the Milwaukee Metropolitan Sewerage District, a 300 MGD sewer district serving 1.1 million people. Ms. Johnson is a licensed professional engineer with the state of Idaho.
