

Idaho Chemical Roundup Success Story

School Name: _____

Contact Name and Title: _____

Phone: _____ Email: _____

Address: _____

Please describe steps taken by the school to:

- Clean out (or partially clean out) expired, unused, or potentially hazardous chemicals from the chemistry laboratory or other parts of the school
- Prevent the accumulation of chemicals in the future
- Make the laboratory a safer place for students and staff

Also please describe any hurdles, if any, your school had to overcome to complete the chemical cleanout or make changes described in the above section. *Please be as descriptive as possible, attach additional pages if needed.*
