

Storm Drain Marking: Introduction To Community Leadership

Congratulations on taking this opportunity to consider participating in the storm drain marking project for your community. The Idaho Department of Environmental Quality and the Idaho Department of Fish and Game have worked to bring together a toolbox of materials to help your community get started on a storm drain marking project. These materials are designed to be used separately or together and can be personalized for your particular community. Feel free to take this toolbox and personalize it to make it your own! These materials are provided as guidance only.

Toolbox templates include:

- ✓ How To, Project Information
- ✓ Sponsor Project Agreement
- ✓ News Release with Example
- ✓ Volunteer List
- ✓ Project Results
- ✓ Materials List
- ✓ Safety Tips and Instructions
- ✓ Door Hanger Template with Instructions
- ✓ Certificate of Appreciation

Your community may want to consider having your legal counsel review your materials for liability and the creation of liability waivers for volunteers.
