THE 1996 § 303 (D) LIST
FOR THE STATE OF IDAHO

Idaho Division of Environmental Quality
1410 N. Hilton
Boise, ID 83706

"KEY" FOR THE 1996 § 303 (d) LISTING FOR THE STATE OF IDAHO

BASIN NAME

The State of Idaho is divided into six hydrologic basins. Each waterbody is listed under the name of the basin where the waterbody is located. The six basins are the:

1. Bear Basin
2. Upper Snake River Basin
3. Southwest Idaho Basin
4. Salmon Basin
5. Clearwater Basin
6. Panhandle Basin.

The listed waterbodies in each basin appear in alphabetical order.

WATERBODY NAME

Presents the common name of each segment.

PNRS NUMBER

This column provides the identification number assigned to each waterbody segment based on the Pacific Northwest Rivers Study.

CATALOGUE UNIT NUMBER

This column provides the Catalogue Unit Number for each waterbody segment.

Note: PNRS numbers and/or Catalogue Unit Numbers were not available for every waterbody segment listed.

BOUNDARIES

"Boundaries" identifies the physical boundaries of the listed waterbodies. For lakes and reservoirs, assume the entire reservoir is the affected waterbody. For some waterbodies, information on the actual geographical boundaries was not available. Other descriptive information, such as basin location, has been provided.

POLLUTANT

Identifies the pollutant (s) of concern.

PRIORITY

Waterbodies on the 303 (d) list are prioritized for TMDL development based on the Idaho Division of Environmental Quality's priorities as presented in the State's 1996 final listing. Each waterbody is assigned a "high", "medium" or "low" ranking. For those waterbodies marked with an "*", TMDLs are currently being developed and/or implemented.

COMMENTS

Data in the "Comments" column identifies many of the sources of information used to support listing the various waterbodies. Codes for the sources are:

1. **305 (b) appendix D** - "Appendix D: Idaho Impaired Stream Segments Requiring Further Assessment, Idaho Water Quality Status Report, 1992";
2. **SSOC** - Refers to the list of "Stream Segments Of Concern" included in each of the six Idaho Basin Status Reports, 1991;
3. **CRITFIC** - Columbia River Intertribal Fish Commission
4. **IDFG** - Idaho Fish and Game
5. **Idaho's 1994 list** - Identifies those waterbodies included on the State's final 1994 303 (d) list.
6. **ICL** - Idaho Conservation League
7. **Watershed and Stream Condition Analysis, 1992** - Watershed and Stream Condition Analysis for the Roaded Watershed, Final Report, Clearwater National Forest, June 1, 1992

Codes directly following "ssoc" define the level of support **("p" for partial support, "n" for non-support and "s/t" for threatened)** for each beneficial use not fully supported. The codes for the beneficial uses are;

1. **DWS - Drinking Water Supply**
2. **AWS - Agricultural Water Supply**
3. **PCR - Primary Contact Recreation**
4. **SCR - Secondary Contact Recreation**
5. **SS - Salmonid Spawning**
6. **CWB - Cold Water Biota**
7. **WWB - Warm Water Biota**

* Denotes streams on Indian Reservations. Streams on the Nez Perce Indian Reservation conform to the 1863 treaty boundaries.

Prichard Creek	1500	17010301	Headwaters to Coeur d'Alene	nutrients, sediment, DO, habitat alt.,pathogens, thermal mod. oil, grease	low	305(b) appendix D
Prichard Creek		17010301	Unnamed tributary to Eagle Creek	sediment	low	Idaho's 1994 list
Priest River	1407	17010215	Preist R. West Br. Upper to PEN	sediment	low	305(b) appendix D
Priest River, Lower West Branch		17010215			low	Forest Service Information
Prospector Creek	1615	17010304	Headwaters to St. Joe River	sediment	low	305(b) appendix D
Quartz Creek	1618	17010304	Headwaters to St. Joe River	sediment	low	305(b) appendix D, ICL
Rathdrum Creek	1560	17010305	Rathdrum to Twin Lake	nutrients, sediment	low	305(b) appendix D
Rattle Creek	1473.03	17010213	Headwaters to Lightning Creek	sediment, flow, habitat alterations	low	305(b) appendix D
Reeder Creek	1424	17010215	Headwaters to Priest Lake	sediment	low	305(b) appendix D
Renfro Creek	1588	17010304	Headwaters to St. Maries River	sediment	low	305(b) appendix D
Rockford Creek*	1548	17010303	Headwaters to Coeur d'Alene Lake	nutrients, sediment, habitat alterations	low	305(b) appendix D
Santa Creek	1585	17010304	Headwaters to St. Maries River	nutrients, sediment, DO, habitat alterations	low	305(b) appendix D
Shoshone Creek		17010301			low	Forest Service Information
Sisters Creek	1613	17010304	Headwaters to St. Joe River	sediment	low	305(b) appendix D, ICL
Skookum Creek	1490	17010301	Headwaters to Coeur d'Alene River, North Fork	sediment	low	305(b) appendix D
Snow Creek	1370	17010104	Headwaters to Deep Creek	sediment	low	305(b) appendix D
Spirit Lake	1438	17010214		nutrients, sediment, DO	low	305(b) appendix D
Spokane River	1552	17010305	Coeur d'Alene Lake to Hueter	metals, temperature	high*	Idaho's 1994 lists
Spokane River	1552	17010305	Post Falls Bridge to WA Border	metals, temperature	high*	Idaho's 1994 lists
Spokane River	1552	17010305	Hueter to Post Falls Bridge	metals, temperature	high*	Idaho's 1994 lists
Spring Creek	1475	17010213	Headwaters to Lightning Creek	sediment	low	305(b) appendix D
Steamboat Creek	1495	17010301	Headwaters to Coeur d'Alene River	sediment, flow, habitat alterations	low	305(b) appendix D
St. Maries River		17010304	Clarkia to Mashburn		low	Information provided during comment period
St. Maries River	1579	17010304	Mashburn (town) to St. Joe River	nutrients, sediment, habitat alterations	low	305(b) appendix D
St. Maries River	1581	17010304	Headwaters to Clarkia	sediment, thermal modification	low	305(b) appendix D
St. Maries River, M. Fk	1594	17010304	Headwaters to St. Maries River	sediment, habitat alterations	low	305(b) appendix D
Tango Creek	1428	17010215	Headwaters to Priest Lake	nutrients, sediment	low	305(b) appendix D
Tank Creek	1575.02	17010304	Headwaters to St. Joe River	sediment, DO, thermal modification, pathogens	low	305(b) appendix D
Teepee Creek	1508	17010301	Coeur D'Alene River to Headwaters	habitat alteration, sediment	low	SSOC-"p" for CWB and SS
Terror Gulch		17010302	Coeur d'Alene River, South Fork		low	Information provided during comment period
Thompson Creek	1530	17010303	Headwaters to Coeur d'Alene	sediment, habitat alterations	low	305(b) appendix D
Thorn Creek	1582	17010304	Headwaters to St. Maries River	nutrients, sediment	low	305(b) appendix D
Tiger Creek	1500.01	17010301	Headwaters to Prichard Creek	sediment	low	305(b) appendix D
Toles Creek	1604.04	17010304	Headwaters to Marble Creek	sediment	low	305(b) appendix D
Trail Creek	1510	17010301	Headwaters to Teepee Creek	sediment	low	305(b) appendix D
Trapper Creek	1432	17010215	Headwaters to Upper Priest Lake	sediment, habitat alter.	low	SSOC-"s/t" for SS and CWB
Trestle Creek		17010214	Pend Oreille Lake and River Drainage		low	Forest Service Information
Turner Creek	1539	17010303	Headwaters to Coeur d'Alene Lake	sediment	low	305(b) appendix D
Twentymile Creek	1373	17010104	Headwaters to Deep Creek	sediment	low	305(b) appendix D
Twin Creek	1478	17010213	Headwaters to Clarks Fork	nutrients, sediment	low	305(b) appendix D
Twin Lakes	1561.1	17010214	N. of Rathdrum(town)	nutrients, sediment, pathogens	low	305(b) appendix D, SSOC-"p" for CWB, "n" for SS
Two Mouth Creek	1427	17010215	Headwaters to Priest Lake	sediment, habitat alter.	low	SSOC-"s/t" for SS and CWB
Tyson Creek	1589	17010304	Headwaters to St. Maries River	sediment, habitat alteration	low	305(b) appendix D
Wall Creek		17010105			low	Forest Service Information
Wellington Creek	1477	17010213	Headwaters to Falls	sediment, flow	low	305(b) appendix D
Wellington Creek	1476	17010213	Falls to Lightning Creek	sediment, flow	low	305(b) appendix D
Wesp Creek	1500.03	17010301	Headwaters to Prichard Creek	sediment, habitat alteration	low	305(b) appendix D
Willow Creek*	1531	17010303	Headwaters to Coeur d'Alene River	sediment	low	305(b) appendix D
Wolf Lodge Creek	1541	17010303	Headwaters to Coeur D'Alene Lake	nutrients, sediment, habitat alterations, pathogens	low	305(b) appendix D, SSOC-"s/t" for DWS and PCR, "p" for CWB and SS
Yellowdog Creek	1506	17010301	Headwaters to Coeur d'Alene	sediment	low	305(b) appendix D
