

Updated IPDES Program Analysis PowerPoint Presentation Slide
 (addition of columns showing number of individual permittees and general permittees in Region 10 and other neighboring states)

As requested by Mike in Twin Falls, here's a table showing the number of individual permittees and general permittees each of the states highlighted in the presentation reported having in the ACWA report. The information is published in that report by state showing costs, permit universe and number of staff. The presentation from the January 23, 2015 meeting has been updated to reflect the information shown below.
