Environmental Resources for Auto Refinishing Shops

Department of Environmental Quality (DEQ) is a state department created by the Idaho Environmental Protection and Health Act to ensure clean air, water, and land in the state and protect Idaho citizens from the adverse health impacts of pollution. DEQ enforces various state environmental regulations and administers a number of federal environmental protection laws including the Clean Air Act, the Clean Water Act, and the Resource Conservation and Recovery Act which governs waste management in Idaho.

Contact DEQ for information on environmental rules and regulations related to air quality, water quality, hazardous waste, and pollution prevention.

State Office

Northwest Automotive Trades Association (NATA) members include collision, repair and transmission shops, auto dealers, auto recyclers, parts and shop suppliers, tire installers, and tow operators. NATA is committed to offering innovative ways to improve the industry and its members' businesses through education, representation, and membership services. www.aboutnata.org/

CCAR-GreenLink is the National Automotive Environmental Compliance Assistance Center for the automotive industry. It is operated by the *Coordinating Committee for Automotive Repair* in cooperation with the U.S. Environmental Protection Agency (EPA). All documents are created by Federal and State EPA and OSHA offices, as well as the automotive industry. www.ccar-greenlink.org/

The Paint and Coatings Resource Center (PCRC) delivers regulatory and pollution prevention information, either directly to businesses engaged in painting and coating, or indirectly through the technical assistance community (including state and local agencies, and consultants). It is maintained by the National Center for Manufacturing Sciences in cooperation with EPA. www.paintcenter.org/about.cfm

P2RX Auto Body Topic Hub is intended as a quick guide to the essential pollution prevention information on auto body, as well as a compilation of pertinent on-line resources. www.p2rx.org/topic hubs/toc.cfm?hub=5&subsec=7&nav=7

CleanerSolutions is an on-line tool to evaluate solvent substitutions for surface cleaning. http://www.cleanersolutions.org/?action=contaminant_search
