Owners and operators of nonmetallic mineral processing plants that opt for a PBR shall comply with all of the applicable provisions of IDAPA 58.01.01.795-799. Registration for a PBR does not relieve the owner or operator of portable equipment from the registration and relocation requirements of IDAPA 58.01.01.500. The Department recommends that Tri-C Inc. maintain this letter, their February 13, 2003 PBR registration, and all required monitoring and recordkeeping information at each site of operations.

Tri-C Inc. has paid the registration fee for the PBR as required by IDAPA 58.01.01.800. Tri-C Inc.'s unique processing plant identification number subject to this PBR is Mine ID #10-01926.
