Owners and operators of nonmetallic mineral processing plants that opt for a PBR shall comply with all of the applicable provisions of IDAPA 58.01.01.795-799. Registration for a PBR does not relieve the owner or operator of portable equipment from the registration and relocation requirements of IDAPA 58.01.01.500. The Department recommends that Tri-C Inc. maintain this letter, their April 25, 2003 PBR registration, and all required monitoring and recordkeeping information at each site of operations.

Other Air Quality Requirements

If your crushing plant is portable, you will be required to submit a portable equipment relocation form each time the plant is moved to a new site of operations. This form is required to be submitted to DEQ ten days prior to relocating the equipment. A copy of the form is enclosed for your convenience.

If you have any questions regarding the Permit by Rule process, please contact me at (208) 373-0437 or wrogers@deq.state.id.us.
