The Red Elephant Gulch group of mines (Sunol Lode, Central, Caledonia, Augusta V, Red Elephant, O.K., Point Lookout, Susie V, Belmont, Henderson, and Wilson) is primarily located on the right fork of the Red Elephant Gulch sub-basin of the Croy Creek drainage basin. The Caledonia, Point Lookout, and a portion of the O.K. mines overtop the ridge line and fall within the Bullion Gulch sub-basin. The legal description is Sections 15, 16, 21, and 22 of Township 2 North, Range 17 East, of the Boise Meridian, Blaine County, Idaho. The figure below shows the mines in relation to Hailey and Bellevue, ID. The group of mines is accessible by vehicle through Red Elephant Gulch by way of a dirt road that intersects Croy Creek Road, approximately 6.9 miles west of Highway 75 in Hailey, Idaho (Figure 1).

This addendum is drafted to include the above listed mines in the Red Elephant Mine preliminary assessment (PA) as these claims and the working located on them are likely part of the Red Elephant mine. In fact, several of the adits and waste piles and the ore bin listed in the PA are likely located on the O.K., Wilson and Henderson claims. This addendum does not change the findings of the original report.

Based on a limited search, Daniel Henry is the current owner of the patented claims of the Red Elephant Gulch Group (Blaine County, 2009).
