

The following list of NPDES discharges to Tier I waters and corresponding receiving waters is a draft list based upon preliminary inspection of the permit and the receiving water listed. The discharge point was determined from the permit and in some cases may not accurately reflect the location of the outfall if the geographic coordinates of the outfall was not listed in the permit. This information is preliminary and subject to change based upon new and more accurate information being supplied to the agency regarding the outfall and the receiving water.

The following "receiving waters" were assigned to Tier I based upon the best estimate of the assessment unit that they empty into. It is not meant to state that the canal/drain/lateral discharged to is being designated. This was done simply for the purposes of analysis and does not constitute an assessment of the canal/drain/lateral itself.
