

Washington's TMDL Process

Where do we go from here?

Two Implementation Plans?

Implementation Strategy

Summary of actions that could be used to reduce temperature

Implementation Plan

Explanation of who is going to do what, when and where.

Two Implementation Plans?

Implementation Strategy

- Introduction
- What needs to be done
- Who needs to participate
- What's the schedule for achieving water quality standards
- Reasonable assurances
- Adaptive management
- Monitoring progress
- Potential funding sources
- Summary of public involvement
- Next steps

Implementation Plan

- What will be done?
 - Sources & organizational actions, goals & schedules
 - Adaptive management
- Funding opportunities
- Measuring progress toward goals
 - Performance measures & targets
 - Effectiveness monitoring plan
- Reasonable assurance
- Summary of public involvement

Where Do We Go From Here?

- Ecology will develop an implementation strategy with stakeholders
- TetraTech will include the strategy in the next draft TMDL
- Technical Team to incorporate changes as a result of comments to the TMDL
- Ecology will perform internal reviews of the draft
- Ecology will make any necessary changes to the TMDL
- States release Draft TMDL for public comment
