The DEQ will work with WAG participants to complete a 5-year Review of the Subbasin Assessment (SBA) and Total Maximum Daily Load (TMDL) document for the Blackfoot Watershed, specifically for the pollutants and stream segments listed on the enclosed table. It is the intent of the department to have diverse representation from industries and interests affected by the management of the Blackfoot River watershed. DEQ will be responsible for consulting with WAG participants on a regular basis throughout the 5-year review.

It is anticipated the 2 hour meetings will be held monthly for the duration of the 5-year review process. A meeting place will be determined from WAG feedback and will try to incorporate the needs of all those interested.

1. May we contact you through E-mail or do you prefer postal mail?

- E-mail is okay     Mail only

2. What is your desired level of participation in the Watershed Advisory Group? Please check the most appropriate.

- I would like to participate in monthly WAG meetings regarding the TMDL.  
 Please Keep me informed of the public comment opportunities, but I do not wish to commit to regular meeting attendance  
 I am not interested in this process. Please remove me from your mailing list.

3. What do you consider the major water quality issues in the Blackfoot River?
