Dear Ms. Wilson,

The Idaho Department of Fish and Game (IDFG) appreciates the opportunity to comment on the ongoing negotiated rulemaking process that Idaho's Department of Environmental Quality (DEQ) has initiated concerning Use Attainability Analysis for Man-made waters. IDFG is very interested in the analysis of issues underlying beneficial use that may affect Idaho's wildlife and is committed to providing technical assistance to assist in those deliberations as the negotiated rulemaking process continues. We will continue to stay informed concerning the rulemaking and to provide technical information to assist the rulemaking as appropriate. Walt Poole, [walt.poole@idfg.idaho.gov](mailto:walt.poole@idfg.idaho.gov) serves as our technical contact for this issue.

Sincerely,
