

Department of Environmental Quality

**Idaho Rules for Administration of Wastewater Treatment Facility Grants, IDAPA 58.01.04
Docket No. 58-0104-1501**

**Negotiated Rulemaking Summary
Idaho Code § 67-5220(3)(f)**

Rulemaking initiated to comply with a recent revision to the Clean Water Act that requires planning documents, that are used for State Revolving Fund (SRF) projects, to assess the cost and effectiveness, to the maximum extent practicable, of efficient water use, reuse, recapture and conservation, and energy conservation.

No issues raised during the negotiated rulemaking process were left unresolved.

The Notice of Negotiated Rulemaking was published in the July 2015 Idaho Administrative Bulletin, a preliminary draft rule was made available for public review, and a meeting was held on July 21, 2015. Members of the public did not attend the meeting or submit written comments. At the conclusion of the negotiated rulemaking process, DEQ formatted the final draft rule for publication as a proposed rule in the Idaho Administrative Bulletin. The negotiated rulemaking record, which includes the negotiated rule drafts, and documents distributed during the negotiated rulemaking process, is available at www.deq.idaho.gov/58-0104-1501.
