26-Apr-17	3-May-17	KC Harvey Environmental , LLC	2	3.5.2	104	Human Health WQBELs

Comment

Equation 19 Q_u should also include harmonic mean, 30Q10, and 30Q5, the critical flow dependent on the exposure group or specific constituent as specified in Table 23.

Recommend updating the sentence to: "EPA's recommended approach for setting WQBELs for toxic pollutants for human health protection is to set the AML equal to the WLA calculated from the human health toxic pollutant criterion and **the human health specified receiving water critical flow referenced in Table 23**, then calculate the MDL from the AML."
