## STATEMENT OF PURPOSE

The proposed legislation is necessary for Idaho to receive authorization to implement a state National Pollutant Discharge Elimination System (NPDES) program to be known as the Idaho Pollutant Discharge Elimination System (IPDES) program. The proposed legislation 1) corrects references of the national program to the state program; 2) provides for the legislative approval of the memorandum of agreement negotiated between the Idaho Department of Environmental Quality (DEQ) and the U.S. Environmental Protection Agency (EPA; 3) excludes permitting authority for vessels regulated by EPA under a nationwide general permit; and 4) provides for the establishment of a dedicated fund for the collection of IPDES fees.

The 2014 Legislature passed House Bill 406 which allows DEQ to collect fees for the IPDES program. Fees were expected to be reasonable and not be assessed or collected until the state obtains an approved NPDES program. To this end, fees will not be assessed until one full year after DEQ anticipates approval of the IPDES program. Program approval is anticipated to be July 1, 2018. Fees would not be collected until July 1, 2019 for the municipal permittees, industrial permittees July 1, 2020, and storm water permittees July 1, 2022.

An expenditure report on how DEQ manages fees levied on those obtaining IPDES permits from the agency will be provided to the Legislature and Governor annually by February 1. This legislation will establish a dedicated fund for the IPDES program to provide for better accountability and transparency. With a dedicated fund, the Legislature and State Controller will be able to view all revenues and expenditures from the Statewide Accounting and Reporting System (STARS), and DEQ will be able to complete an accurate fee expenditure report. In addition, a dedicated fund will earn interest which may increase the fund's balance and decrease fees in subsequent years.

## FISCAL NOTE

There will be costs to the state of Idaho to implement aspects of the IPDES program. The costs are accounted for as part of the overall cost of the program. There is no fiscal impact to establish a dedicated fund for the IPDES program fees.
