---

Paula

After the elections this year, I want to get with my state representative such as Senator Mary Souza regarding DEQ and what I consider a huge waste of time and resources. This issue regarding burn fees has been going on for more than 6 months and this huge drawn out process only cost the government and business money. In other words, regulations and the process are taking way to much time to get things done. There has to be a shorter process and I will ask my representative to get the process cut.

Gary Nystrom  
aka Radar
