Individual/Subsurface Sewage Disposal Rules  
Negotiated Rulemaking  
Docket No. 58-0103-1901

Comments from Public Health District 2 &4

We would suggest that the service maintenance year be added to section 009.02.h.

h. Property owners with an extended treatment package system installed on their property must complete annual operation maintenance and monitoring requirements in accordance with section 006, including effluent monitoring if required by permit. The service maintenance year is July 1 through June 30 of each year. The certified service provider.....

Since the specifications for ASTM C-33 Sand are not the same specifications for Manufactured Medium Sand, we would recommend the removal of any reference to ASTM C-33 Sand from the rule.

Thank you for the opportunity to comment.
