Good morning Paula,

Clearwater Paper would like to offer the following comment related to the IPDES Negotiated Rulemaking. During the April 14, 2020 presentation, there was a new addition to the rules. IDAPA 58.01.25.105.06.i states that an applicant shall provide an indication of whether the facility uses cooling water and the source of the cooling water. Clearwater Paper requests that 40 CFR 125 Subparts I and J be referenced in IDAPA 58.01.25.105.06.i.

Thanks for the opportunity to comment.

Clayton
