Subject: Reuse Permit No. DMI-262-01 (Formerly I-258-01) Pack River Farms Final Reuse Permit
Minor permit modification

Dear Ms. Lock:

The Idaho Department of Environmental Quality issued reuse permit I-258-01 on July 18, 2019 to Pack River Farms, Inc. Our records indicate another industrial reuse permit was issued the same number. To correct this issue, DEQ is reassigning your reuse permit with the following number: DMI-262-01.

This change constitutes a minor modification per the Idaho Recycled Water Rules, IDAPA 58.01.17 Subsection 700.02. As such, no additional action is required on your part; however, you will need to replace the permit issued in July 2019 with the attached modified permit. No other modifications were made to your permit.

The enclosed document is your official copy of the permit and demonstrates that you are authorized to operate the reuse facility subject to the conditions specified in the permit.

Your permit was issued as of July 18, 2019 and expires on July 18, 2024. If you have any questions, please feel free to contact me at (208) 666-4634 or e-mail taylor.enos@deq.idaho.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "Taylor Enos".
