4/21/2020	4/21/2020	Rex Moffat	1	5.1.1	19	Eligibility	<i>Idaho Pollutant Discharge System Designation Criteria and Selection Process for Small Municipal Separate Storm Sew Systems (DEQ 2016)),</i> Shouldn't Sew be Sewer . In addition it appears that there is an extra paranthesis. Maybe make this a link to the document so that it can be found, I could not locate it on the DEQ website
4/21/2020	4/21/2020	Rex Moffat	2	5.2	21	Storm Water Management Plan (SWMP)	Where would the funding for this need to come from. Most smaller Cities do not have a separate fund for storm water management, nor do they have the means to create such a fund. Funding of any storm water projects puts a burden on the Cities funds above that which is already stretched thin. Not to mention the additional personnel that would be required to oversee the storm water program and ensure compliance.
4/21/2020	4/21/2020	Rex Moffat	3	5.2.2.1	21-22	Public Education and Outreach	Will DEQ be developing templates for fliers, SWMP's, Brochures, etc. that cities can use to help them reduce the costs of adminisering this program?
4/21/2020	4/21/2020	Rex Moffat	4	5.2.2.6	23-24	Pollution Prevention/Good Housekeeping for Municipal Operations	Bullet 2 "Development operations and maintenance .." should be "Development of operations and maintenance ..." Bullet 6 "Operation and maintains procedure for munipal areas an activites ..." should read "Operations and maintenance procedures for other municipal areas and activities ..."
