Re: Site Approval Application – Ada County Waste to Energy Plant

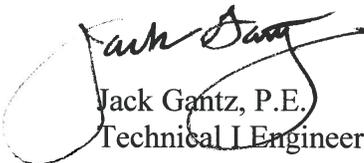

Dear Mr. Pergande:

This letter is in response to your Non-Municipal Facility Site Approval Application for the above referenced facility located within Ada County, Idaho. The application was originally submitted to the Idaho Department of Environmental Quality (Department) on January 12, 2012, and additional information was submitted on February 15 and March 1, 2012. After reviewing the siting application and supplemental information, the Department finds the site complies with the general siting requirements identified in IDAPA 58.01.06.012.01 and facility-specific requirements in IDAPA 58.01.06.012.09 and IDAPA 58.01.06.012.11. The Department hereby approves the Non-Municipal Site Approval Application for the above referenced facility.

You may now move forward with the submittal to the Department of the design approval application as per the requirements of IDAPA 58.01.06.012.10. In addition, you must submit an operations plan to the Central District Health Department for review and approval in accordance with IDAPA 58.01.06.012.04.

Please contact me at 208-373-0599 or via email at jack.gantz@deq.idaho.gov should you have any questions.

Sincerely,

Jack Gantz, P.E.
Technical Engineer
