

**2013 Water Reuse Conference**  
**May 15 and 16, 2013 - Boise, Idaho**

**Name:** Chas Ariss, P.E.  
**Title:** Wastewater Engineering Program Manager  
**Organization:** Idaho DEQ  
**Address:** 1410 North Hilton  
Boise, ID 83706  
**Phone:** 208.373.0561  
**Email address:** [chas.ariss@deq.idaho.gov](mailto:chas.ariss@deq.idaho.gov)

**Session Title:** Idaho Water Reuse

**Abstract:**

The Idaho Department of Environmental Quality (DEQ) is a regulating agency for wastewater for the State of Idaho. DEQ provides perspectives on water reuse and wastewater issues which responsible charge operators should be aware of. Responsible charge wastewater operators run facilities that are permitted to comply with state rules. As such this presentation to wastewater operators in Idaho regarding the wastewater reuse issues are meritorious of credits.

**Professional Background:**

Chas is a Licensed Environmental Engineer with over 30 years of professional experience in multimedia environmental science and engineering. He returned to DEQ in 2012 to serve as the Statewide Wastewater Engineering Program Manager. Chas was formerly the Engineering Manager for DEQ's Boise Regional Office from 2000-2006. The balance of his career has been serving various positions with the USEPA Environmental Research Laboratory in Corvallis, Oregon, the Idaho National Engineering Laboratory in Idaho Falls, and working as a private engineering consultant.

His academic background includes undergraduate degrees in Agriculture, Systems Ecology, Forest Biology, and Environmental Science and Forestry through the State University of New York system and Syracuse University. He also holds a Master of Engineering degree in Civil and Environmental Engineering from Utah State University, served as a Graduate Research Fellow at the University of Idaho Institute for Resource Management, and has an Executive MBA from the Boise State University Center for Management Development.

Chas has been involved with a variety of municipal and industrial recycled water projects throughout Idaho over the past 12 years and is pleased to take the leadership role in this discipline for DEQ on a statewide basis.
