

**2013 Water Reuse Conference
May 15 and 16 Boise Idaho**

Session Title: Imagine That! Funding Your Project!

Abstract:

Communities and Districts that are considering reuse projects have a multitude of challenges to master, not the least of which is how to affordably fund the project. This presentation features a discussion of fundamentally sound approaches to acquiring funding for projects. It will also include the presentation of case studies utilizing aggressive, imaginative approaches to funding that resulted in the successful completion and, transition to operating of several landmark reuse projects.

Three Presenters:

- 1. Rick Noll**
- 2. Clarence Kemp**
- 3. Ted Hendricks**

Name: Richard M. Noll, PE
Title: President/CEO
Organization: Forsgren Associates, Inc.
Address: 415 South 4th Street
Boise, ID 83702
Phone: 208.342.3144
Email address: rnoll@forsgren.com

Rick is President of Forsgren Associates and offers 33 years of experience in civil and environmental engineering with special emphasis on all aspects of water resource management including wastewater treatment and reuse, potable water, irrigation, and stormwater. He has designed and managed large civil infrastructure projects across the western US and Mexico and is adept at resolving often disparate challenges associated with roads, parking, railroads, natural gas, electric power, water utilities, and the often imaginative funding approaches necessary to bring the projects to fruition.

Rick is an assertive proponent of the utilization for treated effluent for water reuse; he conceived, developed and managed the first unrestricted wastewater reuse projects in multiple jurisdictions within the United States and Mexico. His leadership in reuse is proving to be of significant value to cities with limited water supplies and ongoing growth.

Name: Clarence S. Kemp, PE
Title: Vice President
Organization: Forsgren Associates, Inc.
Address: 415 South 4th Street
Boise, ID 83702
Phone: 208.342.3144
Email address: Ckemp@forsgren.com

**2013 Water Reuse Conference
May 15 and 16 Boise Idaho**

Clarence has been directly responsible for the planning, design, and construction of numerous municipal utility and infrastructure improvements over the past thirty years. He has also performed rate studies and impact fee analysis for virtually all of these projects, often as an integral part of the funding feasibility and always with the goal of insuring that the community is left financially healthy after a project is completed.

Clarence has also taught utility financial planning and rate classes for several western states. He has a hands-on comprehensive understanding of public financing requirements and constraints including tax increment financing, impact fee eligibility, and public agency funding.

Name: **Ted Hendricks**
Title: Community and Economic Development Director
Organization: East-Central Idaho Planning & Development Association, Inc. (ECIPDA)
Email address: <http://www.thedevco.net>

Ted joined ECIPDA in 1986 and is responsible for the development and implementation of community public facility and economic development projects. Ted works with private and public agencies in planning, development, funding, and implementation. He works extensively in municipal bonding and innovative methods of financing. He is a graduate of the University of Utah with a B.S. degree in Business Communications, as well as a graduate certificate in Public Administration.
